Marie and Anton are connoisseurs of motorhomes and are big KNAUS fans. That's why we selected them to go on a great journey in our integrated motorhome and experience what it feels like to go on holiday with the #Number 1.

YOUR FREEDOM IS OUR PHILOSOPHY

Since 1960, KNAUS has unwaveringly devoted itself to making unforgettable holiday moments come true. We combine what is proven with what is new with all our experience and the courage to strike out on new paths. In production we build on Lower Bavarian craftsmanship, whilst in the development of new vehicles we focus on state-of-the-art construction and production techniques. This combination of proven principles and innovative ideas makes us one of the most successful brands in the industry. Not to mention the #Number 1 of our customers.

See how well our motorhomes are perceived on page 109.

KEY MOTORHOMES

- Number of beds
- Seats with seatbelt
- under 3.5 tonnes
- Single beds
- Transverse bed
- French bed
- Island bed
- Child's bed
- Drop down bed
- Guest bed
- Over cab bed

SERIES ABBREVIATIONS MOTORHOMES*

SEATING AREA

- L L-shaped seating area
- D Dinette
- M Single seat

BED

- Q Transverse bed at front/back
- F French bed
- X Island bed
- E Single bed

VARIANS

- K Children's room
- G Garage
- B Bathroom

HOW WE BECAME WHO WE ARE

From a Lower Franconian caravan factory to one of the most important brands in the industry: Company founder Helmut Knaus set new standards in 1961 with his first caravan, the legendary Schwalbennest. A pair of swallows as a logo is now indelibly linked with the most appealing kind of vacation possible.

1960 Helmut Knaus founded KNAUS in Marktbreit, Bavaria.

1961 The KNAUS Schwalbennest appears on the market - compact, comfortable, and lightweight.

1962 An icon was born. The KNAUS SÜDWIND celebrates its premiere.

1970 A new era begins: Our headquarters in Jandelsbrunn are built.

1973 For his courage and pioneering spirit, Helmut Knaus was awarded the Order of Merit of the Federal Republic of Germany.

1985 Things grew quickly. That could also be clearly seen with the new logo.

1988 The TRAVELLER became the first KNAUS motorhome and was the Promobile "Motorhome of the Year".

1996 The Travel Liner means we now have fully integrated motorhomes in our product range.

2004 The SUN TI impressed vacationmakers with its large panorama skylight.

2005 A genuine success story begins. Finally, KNAUS quality can be seen in a camper van.

2015 With the SUN I, we made a strong comeback in the liner segment.

2016 The new generation of Germany's most popular partially integrated motorhome came on the market: the SKY TI.

2016 We are revolutionising an entire industry. THE MISSION is the path to the future.

2017 With the LIVE series, KNAUS completed the largest and most attractive model range of all time.

2018 Our camper vans are celebrating 30 years of success. And in the VAN TI PLUS, we are bringing together what belongs together: KNAUS is building the first camper van on MAN TGE.

FROM AN IDEA TO A KNAUS

Several steps are necessary to make a really good vehicle out of a good idea. We approach every single one with the clear objective of building vehicles in which you can spend the happiest times of your life.

2. KEY FEATURES

A television that can be retracted into the bench and an extending base storage compartment? This part is about setting out the highlight.

3. EXTERIOR & INTERIOR

We clarify which variants are offered. Moreover, and particularly exciting: How the motorhome should appear at the end. Ultimately, design is one of the keys to success.

1. IDEA & SKETCHES

Where does the journey go?
A compact motorhome or something large or luxurious?

4. PREPARATIONS AT THE PLANT

A solid foundation must be created for a new model at all times. That is why we invest in our manufacturing plants. And especially in our employees. Our headquarters and development site are in the Lower Bavarian town of Jandelsbrunn. We have built two ultra-modern manufacturing sites - one in Mottgers, Hesse, and another one in the Hungarian city of Nagyoroszi. We have over 2,000 employees, many of whom have been with us for over 30 years. Why do our employees like working with us? Here they have optimal working conditions and they can receive ongoing training and they are members of our unique KNAUS family.

Would you like to discover on site how our motorhomes are created? Find out more at www.knaus.com/factory-tour

5. PROTOTYPE

For the first time, the idea takes on tangible shapes. An initial prototype is created.

6. SERIES PRODUCTION

All the tests were passed. Now it really starts. New motorhomes will soon be travelling into vacations.

7. HANDOVER TO THE CUSTOMER

Our new model has reached its destination, and is ideally prepared for many years of dream vacations.

More information about the factory pick-up at www.knaus.com/werksabholung

OUR MISSION: A REVOLUTION

THE MISSION is more than just the path to another series of models. THE MISSION is the task, the hurdles, the courage, and the objective of revolutionising the future of the leisure vehicle industry. In this case, the TRAVELINO was the first step. It demonstrated what is possible in terms of lightness, flexibility, and sustainability. Its ground-breaking innovations flow, step-by-step into other models until we have revolutionised all of our series and can ultimately state with great pride: MISSION completed.

Strong personalities are behind every major change, and they have a clear objective in sight

THE VISION

What should the caravan of the future be able to do? Only one thing is clear: We are striking out on new paths.

THE DIRECTION

Consistently lightweight design for a four-person caravan with a permitted maximum weight of 750 kilograms.

THE STUDY

We presented the TRAVELINO at the Caravan Salon 2014 in Düsseldorf in front of an enthusiastic audience.

THE TRAVELINO 1.0

Series production has been agreed, market introduction is due - and then the new start. We are not yet happy with our innovation, we want the revolution.

THE REVOLUTION

The TRAVELINO 2.0 was born. It went into series production with revolutionary construction technology and pioneering materials.

THE IMPLEMENTATION

From TRAVELINO and DESEO, we are also transferring THE MISSION to our caravans and are thereby opening a new chapter.

On to new deeds

WHERE DOES THE JOURNEY GO FOR KNAUS?

KNAUS can look back on a [success story](#) lasting half a century. Where could the journey still lead us? Are there still opportunities to [develop something new, or to improve?](#)

[Interesting answers](#) to these questions were provided directly by Product Manager Jürgen Thaler

What is so special about KNAUS?

Jürgen Thaler: KNAUS has always gone with the times. Now we're at a point where we are rushing ahead of the times. We are currently revolutionising our industry with new ideas and technologies.

How could we imagine that?

Jürgen Thaler: The fundamental structure of a leisure vehicle has barely changed in decades. However, we follow completely new paths.

What measures does that specifically entail?

Jürgen Thaler: As well as lightweight materials used for making furniture as well as unique fastening technologies using ultrasound, the FibreFrame technology is the innovation that will make history.

What is so special about this framework?

Jürgen Thaler: This is a framework that no longer requires the furniture as stabilising elements. This means that we are considerably more flexible regarding the design of the vehicle interior and exterior. We also achieve ground-breaking progress with regard to weight and stability. Function should not be forgotten either. For example, it is possible with the FibreFrame to integrate a huge tailgate in order to be even closer to nature, or to transport motorbikes or similar.

Is it possible to see this live?

Jürgen Thaler: Much of the future can be seen in both the TRAVELINO and the new DESEO. Be sure of one thing: We're working at full throttle in order to soon be able to revolutionise the world of motorhomes. In other words, wait and see.

OPTIMUM TECHNOLOGY FOR THE MOST BEAUTIFUL TIME OF THE YEAR

1. DURABLE TVT STRUCTURE³

Functional sandwich construction made of aluminium and insulating materials (XPS or EPS) with polyurethane plastic reinforcements and fully bonded structure make the whole structure of the vehicle more stable, more resistant to decay, and more durable. This is what Top Value Technology - in short: TVT represents.

2. ROBUST HIGH-STRENGTH GRP ROOF¹

Not all GRP is the same. Resistance depends on how high the glass content is. For maximum protection against hailstorms, we decided on the high-strength variant with a fibreglass content that is almost three times greater than that of standard GRP.

3. EXCELLENT GRP UNDERBODY²

We install a thick, tough GRP layer in order to best protect the underbody against weather, impacts from stones, or similar.

4. INSULATING DOUBLE FLOOR²

Our double floor ensures cosy warmth due to double-layer insulation even in the coldest outside temperatures. Water and heating pipes are installed such that they are protected against frost and damage.

5. ALKO TANDEM DEEP FRAME CHASSIS²

The low centre of gravity and the particularly torsion-resistant chassis ensure exceptional driving and comfort features as well as maximum safety when driving. An additional benefit is that the low chassis height provides more room to stand and more loading volume even with compact dimensions.

Exclusive to SUN I: Our especially high-quality and durable TVT+ structure

What is one of the most important aspects in designing a motorhome? That, regardless of the weather, you can have fun on vacation with it. That should also last many, many years. For this reason, we developed aluminium-XPS-aluminium structures and christened it Top Value Technology+.

1. DURABLE TVT+ STRUCTURE²

This is bodywork technology at a purely luxurious level: An outer shell made of highly-resistant aluminium sheets, quality XPS insulation between them, and aluminium sheet on the inside with a textile wall covering. This double-wall structure increases the torsion resistance of the structure, and therefore ensures maximum durability. The aluminium sheet on the inside ideally collects and dissipates the heat in your SUN I, providing a uniquely pleasing atmosphere. The TVT+ structure also provides benefits with regard to safety. Despite the GRP roof, the aluminium interior wall creates a Faraday cage that provides optimal protection even in heavy storms.

2. EXCELLENT INSULATION EFFECT²

The aluminium and XPS combination is the best that can be used for the outer shell of a motorhome. It is therefore no surprise that the side wall is comparable to a typical house wall with regard to its insulating effect. Your benefit: Lower gas consumption in winter and ideal protection from heat in summer.

3. TEXTILE WALL COVERING²

The textile wall covering does not just create a homely atmosphere with its pleasant and soft surface, but it also improves the acoustics and heat storage.

4. OPTIMAL PROTECTION AGAINST DECAY²

Coated aluminium and hydrophobic XPS insulation together make a side wall that is resistant to decay, and it also ensures a long vehicle life due to age-resistant materials and high torsion resistance.

¹ Across all series

² Dependent on model

³ Optional

A thoroughly well-designed concept for your vacation enjoyment

An excellent motorhome is the combination of innumerable practical and high-quality details. We have summarised a few points here for you so that you can see what exactly can be found in our integrated motorhomes.

1. SEWER VALVE CAMERA³ & ELECTR. DRAIN VALVE¹

The SUN I 3 axles can be optionally equipped with a waste water valve camera to simplify the positioning of the vehicle over the drain. The standard electric drain valve can be conveniently operated from the cab.

2. PRACTICAL FRONT BLIND³

Whether a pleated blind or an insulating shutter. Whether electric or manual. Thanks to the practical front blind, curious glances, cold weather, and the glare of the sun all remain outside if required.

3. AIR DUCTS DRIVER'S CAB HEATING¹

The front section of the dashboard is heated in a targeted manner in all integrated KNAUS vehicles. This does not just prevent misted windows, but the insulated porch area also works in a similar manner to an area heating system. This means that the same pleasant atmosphere in the vehicle also applies to the driver's cab.

4. EFFECTIVE VEHICLE INSULATION¹

Optimal comfort regarding noise when driving, ideal insulation when still. We use a special high-tech material in areas that are particularly heavily used, such as the wheelhouse and the engine compartment: Expanded propylene. This material has exceptional noise and heat insulation properties as well as being extremely resistant against mechanical effects.

5. PRACTICAL DOUBLE FLOOR²

Alongside the benefits with regard to insulation, the double floor has a practical advantage too. It also serves as a loading option for bulky objects such as skis or camping furniture, as well as several storage compartments for smaller utensils. A particular highlight: The storage space beneath the bench is easily accessible from both the inside and the outside.

6. EXCLUSIVE 17" KNAUS ALLOY WHEELS³

Striking design and genuine KNAUS DNA. That's what can be found with the new alloy wheels, which are available in the black gloss front polished or titanium metallic paint variants, depending on the range.

7. QUALITY VEHICLE GRAPHICS¹

Timeless design means nothing if the vehicle starts looking old after only a few years. For this reason we only use quality products from renowned suppliers, such as 3M, Avery, and Oracal.

¹ Across all series ² Dependent on model ³ Optional

Travel without worries, arrive safely, relax and enjoy

When furnishing our motorhomes, we place great store on a high degree of safety and maximum ease of use. From specially developed windscreen wipers to particularly safe body doors to practical single-handed operation.

1. BLIND SPOT WARNER ³

Our Blind Spot Warner helps you keep track of side and rear traffic. The system gives you the necessary all-round view not only while driving but also when maneuvering. Pure safety!

2. PRACTICAL CENTRAL LOCKING ^{2,3}

So that you don't have to individually unlock and lock every single door, we have installed a convenient central locking system for the garage doors and service doors. Everything is secured at the touch of a button. It couldn't be easier.

3. MAXIMUM SAFETY ¹

Our large panorama windscreens in combination with the perfectly adjustable GRAMMER seats and the large side windows grant the greatest possible view looking upwards, downwards, and to the sides. We do not install any universal solutions with regard to our windscreen wipers, but use systems that are ideally adapted to the curvature of the windscreen to provide optimal performance. And finally, our windscreen heater effectively prevents misted windows. Put in short: more active safety for you by having an ideal view and optimal visibility.

4. METAL LOCKS IN BODY DOOR ¹

So you can sleep soundly at night, we install solid high-tensile steel closing elements in our body doors so that you and your loved ones can enjoy a relaxed vacation.

5. DOORS WITH SINGLE-HANDED OPERATION ¹

Locked several times over, yet can still be operated with just one hand. We do not use fiddly twist-action locks, but aim to provide maximum convenience instead. In addition, the double seal ensures that driving rain and strong winds do not have an effect on your vacation experience.

¹ Across all series

² Dependent on model

³ Optional

That's how nice it is to start your holiday with KNAUS motorhomes

NEW

With our five different caravan cabin doors, the possibilities are endless. In order to keep unwanted downpours and other forms of inclement weather outside, all KNAUS cabin doors are equipped with a weather-resistant double seal. The variants KOMFORT, PREMIUM and EXKLUSIV are also equipped with an automotive, noiseless locking systems and, depending on the layout, also available in an oversized version.

Technical changes reserved

Connect, fill, release: Our ServiceBox covers everything

A power supply socket here, a drain tap there, and the fresh water tank somewhere else – supply technology may appear such in many motorhomes, but not in ours. The practical KNAUS ServiceBox is installed in every KNAUS motorhome, and it combines all important functions and connections in one central location. For maximum ease of use.

The ServiceBox in the double floor also contains the technology for the power supply.

SUPPLY TECHNOLOGY

When your motorhome offers the same comfort as your home, then quite a lot of supply technology is required. In our SUN I example vehicle this is stored in the double floor. This has the advantage that the whole installation is particularly frost-proof and can be easily serviced via openings in the floor.

- A. ServiceBox
- B. Fresh water tank
- C. Waste water tank
- D. Batteries
- E. Gas bottles

UNIQUE SERVICEBOX

1. Filling the fresh water tank
2. Cleaning opening for fresh & waste water tank
3. Drain tap for fresh & waste water
4. Cable guide
A sealed cable guide from below is available in the ServiceBox for cables to be laid tidily.
5. Tank heater
With one simple grip, you can operate the shutter for the warm air supply to the water tanks.
6. Power supply
7. Frost monitor

AN INTERIOR THAT DELIGHTS

One challenge is to transfer an apartment with bathroom, bedroom, living area, and kitchen down into an area that is fit for the road. The other includes intelligent design solutions, such as dimmable atmospheric lighting that can turn a living area into your favourite space.

1. EXCELLENT EVOPORE MATTRESSES¹

30% lighter and 40% lower reduction in firmness compared to similar cold foam mattresses. No depressions are created, even if only used on one side. For even more exclusive sleeping comfort, the optional WaterGel overlay provides up to 50 mm more thickness.

2. DIMMABLE AMBIENT LIGHTING³

Overhead cupboards, storage compartments, counter top, overhead compartments, canopies - wherever light makes vacation that little bit better, we use our integrated, dimmable ambient lighting.

3. MAGNETIC CATCH²

The quality magnetic catch means that the door can be used for various purposes in the open bath, whilst it also closes gently almost without making a noise.

4. QUALITY MATERIALS¹

Quality materials are the basis of maximum durability. For this reason, we install items such as solid cast-iron grates, scratch-resistant stainless steel wash basins, quality metal handles, and much more.

5. SAT NAVI WITH CAMPING SOFTWARE³

An entertaining, stress-free journey is also part of a relaxing vacation. This is provided by our new Pioneer navigation system. With an intuitive multi-touch user panel, maps for 44 European countries, DAB+ receiver, Apple CarPlay, Android Auto, Parrot Bluetooth hands-free system, and optimum sound through to 13 band equalisers, it has everything you would expect from a modern multimedia navigation system. This also includes 3 years of free map updates.

¹ Across all series

² Dependent on model

³ Optional

We don't build castles in the sky; instead we build furniture that creates a pleasant atmosphere.

The expectations made of the furniture in our camper vans are very high. They are not just met with pleasing designs and a great deal of storage space. Durability, intelligent construction and technology that impresses for life – those are our measures.

ELABORATE INTEGRATED FURNITURE ²

Air circulation is one of the main prerequisites for a pleasant, healthy room environment.

Ceiling cabinets:

They have a particularly sturdy design and are mounted with clearance from the walls. As a result, air can freely circulate behind the cabinets. Condensation is therefore prevented in the cabinets, and your clothing and goods always remain fresh and dry.

Kitchen block:

All furniture is ventilated such that the heating can perform its optimal function. Open rear ventilation cut-outs ensure perfect circulation of heated air and provide cosy warmth in the vehicle.

5

3

1. SOLID ALUMINIUM PROFILES ¹

The furniture plays an important part in ensuring stability of the entire structure. That is why we use highly rigid aluminium profiles with our furniture. These are even more stable than solid timber profiles, and considerably lighter.

2. ADJUSTABLE SOFT-CLOSE DOORS ¹

No thumping, no rattling, no reclosing. The soft-close drawers close gently and lock automatically.

3. SOLID DOWELLING TECHNOLOGY ¹

Our furniture is joined using elaborate dowelling as standard. This means we achieve great precision in fitting, as well as a considerably more stable structure so that your furniture will still serve you well even after many years.

4. SCRATCH-RESISTANT HPL/CPL SURFACES ¹

High pressure laminates are laminates that are specifically used for heavy loads such as in kitchens. The multi-layer construction is produced under extremely high pressure, then sealed with an exceptionally robust surface layer. This makes our work areas and tabletops particularly scratch-resistant.

5. STABLE SOFT-CLOSE FULL-EXTENSION SLIDES ¹

We work together with GRASS for our drawers, who otherwise mainly supply their goods to leading furniture manufacturers. You'll notice the difference. Due to the full-extension slide, the drawers slide out so far that they can be filled or emptied easily right to the very back of the drawer. They are guided accurately and close quietly - for the life of the vehicle, and probably also beyond.

¹ Across all series ² Dependent on model ³ Optional

ALL TECHNOLOGY IN YOUR HANDS

With KNAUS smart CI, the central control of the technical units is particularly easy and user-friendly. Our control panel with 4.3-inch capacitive touch screen is the most convenient and easiest way to centrally control all functions of the vehicle. Like a smartphone, it can be controlled intuitively by touching the screen.

SOPHISTICATED TECHNOLOGY

The KNAUS smartCI system has been used since its introduction in the 2014 SUN TI and is being constantly developed and improved. From the beginning, two things were particularly important to us: the system should be simple to maintain and repair, and on the other items such as light switches or the control panel for the heating should still function even if the smart CI system fails.

- A. Control panel
- B. Digitally networkable electric junction box
- C. Lighting control modules with 8 digital outlets

1. STARTSCREEN OVERVIEW

All important vehicle information can be seen at a glance. Touching the individual areas takes you to a more detailed range of adjustment options.

2. MULTI-ZONE CLIMATE CONTROL UNIT

Several climate control zones can be controlled depending on the range of incorporated features. Select the desired temperature and the automatic system monitors the heating or the air-conditioning depending on the situation.

3. FILL DISPLAY OF WATER TANKS

You can see at a glance here what the fill levels of the tanks in the vehicle really are. In addition, the device provides an acoustic signal when filling the fresh water tank.

4. LIGHT CONTROL IN THE ENTIRE VEHICLE

Dimming the main light in the living area, switching off the light in the bathroom, and also making the ambient lighting in the bedroom a bit brighter at the same time? Not a problem. The control panel can be used to ensure that you have the right lighting and a homely atmosphere in all areas of your KNAUS.

5. DETAILED BATTERY MONITORING

Monitor the charge status of your batteries on board. Further information can be accessed in connection with a battery sensor (as standard with a body battery).

6. PRACTICAL FRONT BLIND

The settings menu can be used for the optional front blind to select from predefined options and then select the desired position at the touch of a button.

Also, that is not remotely all functions that are covered, you can also manually monitor the heating and air-conditioning, activate the ALDE booster in the predefined vehicle areas or check the time, date, or interior and external temperatures.

DELECTABLE, OUR KITCHEN VARIANTS

A kitchen has to withstand a great deal and live up to high standards. Robust counter tops, quality devices as well as well-thought out design with short walking distances and a great deal of storage space are all in every KNAUS kitchen as standard.

KITCHENETTE

- 1. Roomy L-shape.** In the corner kitchen, the kitchenette can be found behind the dinette. This means that the sink and the stove can be placed on the corner. This ensures a great deal of work space.
- 2. Large refrigerator.** 190 litres is sufficient volume for all supplies.

LONGITUDINAL GALLEY KITCHEN

- 1. Extending counter top.** The extremely stable folding additional surface provides additional room in a flash when cooking.
- 2. Soft-close drawers.** Due to a full extension, supplies and crockery can be easily reached.

COMPACT KITCHEN

- 1. Integrated refrigerator.** It offers a spacious 108-litre volume and is directly integrated into the kitchenette.
- 2. Extra-deep sink.** Even large saucepans can be easily cleaned thanks to its depth.

DISCOVER OUR BED VARIANTS

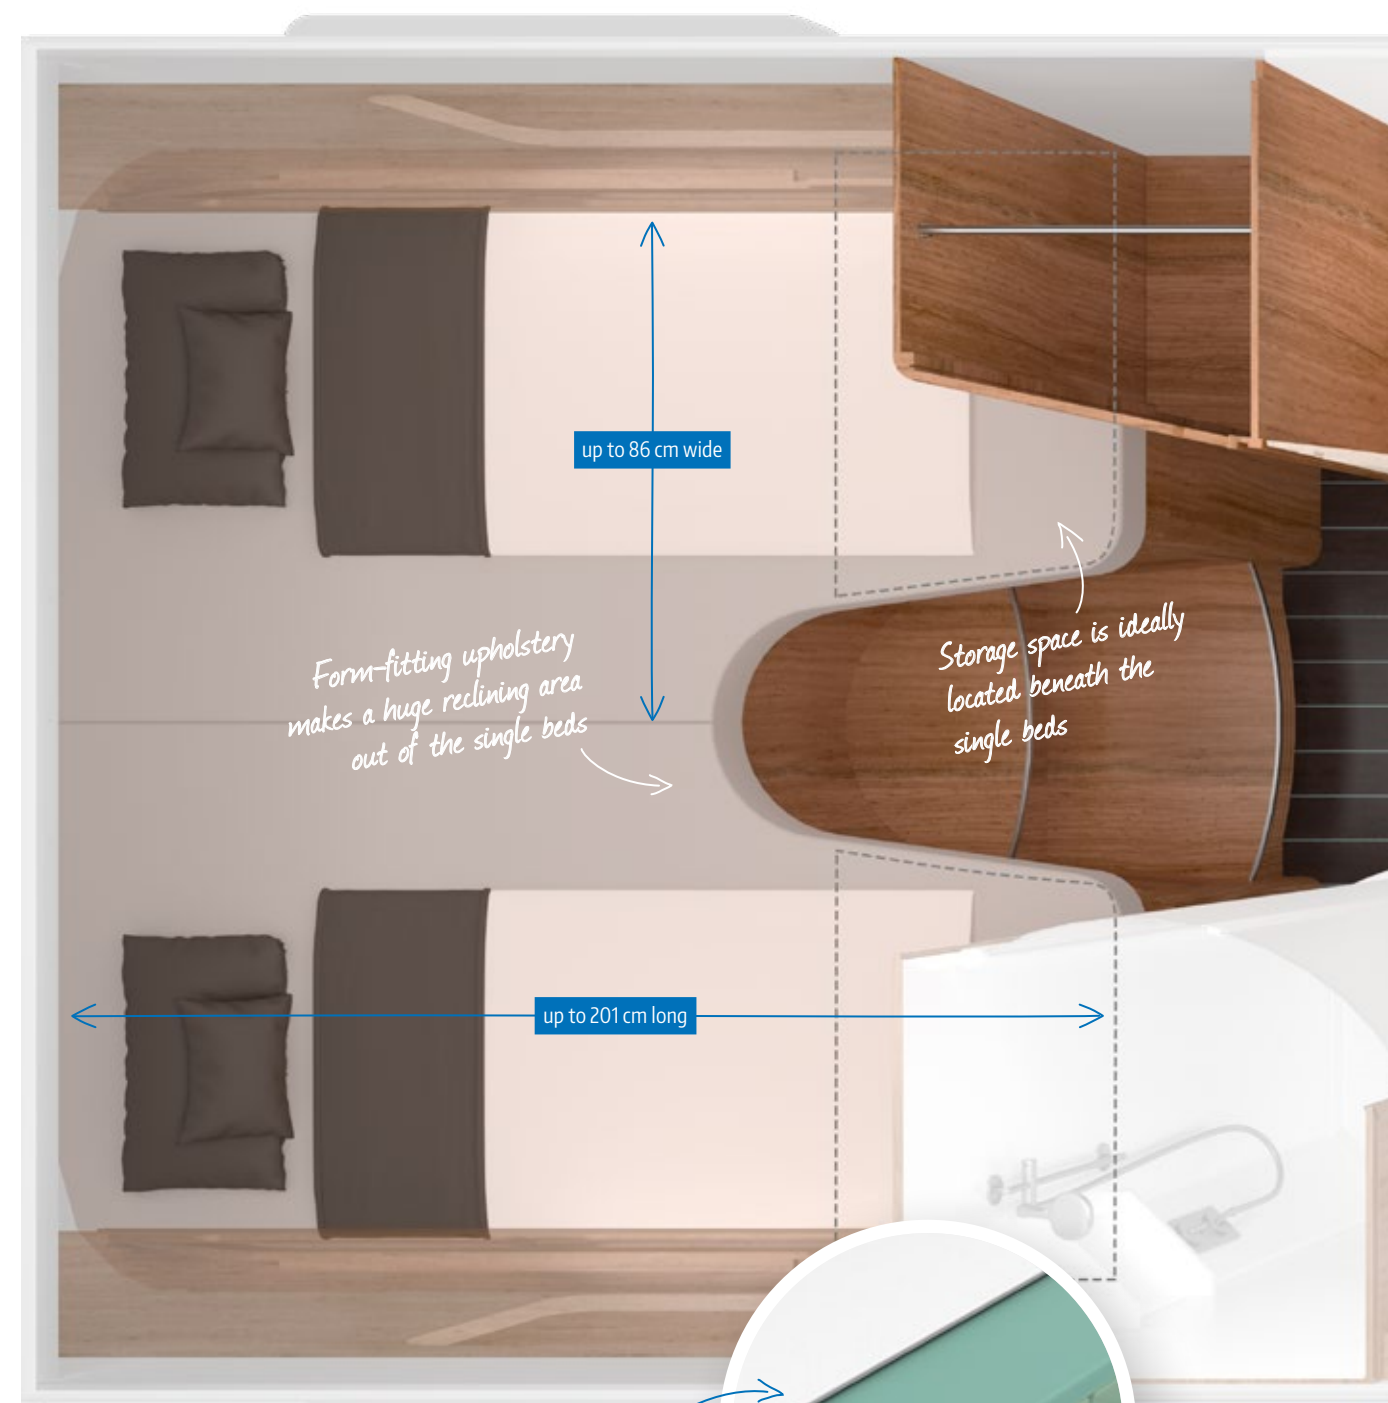

Travel means experiencing and relaxing. So that you can start an eventful day on vacation refreshed, various types of bed are available: from extending single beds to a large reclining area. How would you like to bed down?

1. Generously-sized beds. Depending on the layout, single beds are up to 201cm in length and about 90cm in width.

2. Storage space and double bed. Additional storage space can be found beneath the beds. Due to form-fitting upholstery, a comfortable double bed with a width of over 200cm can be (optionally) created in a flash from the single beds.

SINGLE BEDS

Perfect bed chamber for a Princess and her Prince

Would you like a double bed with a comfortable sleeping area and access from both sides? Or do you prefer maximum use of space? Whether a Island bed or a Transverse bed, due to the 5-zone EvoPore mattresses you'll sleep well on either variant.

QUEEN-SIZE BED

- 1. Spacious ascent.** A wardrobe is positioned on both sides of the bed.
- 2. Central position.** Access to the Island bed is possible from both sides due to its being arranged in the centre.

TRANSVERSAL BED

- 1. Ideal for longer sleepers.** The Transverse beds are up to 212cm in length and 150cm wide.
- 2. Perfectly integrated.** The Transverse bed requires very little room and therefore creates more living space.

A vacation apartment with comfortable rooms

Are you travelling with your children or grandchildren? Or do you like having an additional bed for any guests that might just drop by? No problem: With our Drop down beds for two, or our guest bed for one person, up to 5 beds are possible.

During the day the Drop down bed can be easily moved upwards, freeing up space for maximum comfort in the living area.

GUESTBED

- 1. Variable and comfortable.** Simply lower the table, add the upholstery, and an additional bed is available.
- 2. Stable lifting table.** It is the foundation for the guest bed and is correspondingly stable.

LIFTINGBED

- 1. Lower with ease.** The Drop down beds can be lowered to a particularly low level, ensuring ease of access without a ladder.
- 2. Space-saving.** When not in use, the living area is still at a comfortable standing height.

EXPERIENCE OUR BATHROOM VARIANTS

Stylish, well-designed, and spacious describe KNAUS bathrooms. During design we place great store on elegant forms, as much storage space as possible, and a pleasing atmosphere. With the design, we aim to ensure that the bath provides as much space as possible, whilst taking up little space.

- 1. Rotating toilet.** This means every centimetre of space is best used and freedom of movement in the bathroom is maximised.
- 2. More shower space.** The open bath provides room for a particularly large shower with numerous shelves for all cosmetics.
- 3. Elegant design.** The elegant stone finish fits the overall concept perfectly.

OPENBATH

Find your very own personal oasis of calm

Would you like a compact layout, but still have a spacious bath?
Or do you place great store on lots of freedom of movement?
Dive into one of our many bathroom options. There truly is something for everyone.

COMFORTBATHROOM

- 1. The space miracle.** The pivoting wall in the comfort bathroom ensures, on the one hand, great convenience due to the spacious shower cabin.
- 2. For more mobility.** The washbasin is attached to the other side of the swivelling wall. This means that you always have exactly the space you need.

QUALITYBATHROOM

- 1. Quality glass shower cabin.** The generous proportions, numerous shelves, and the integrated skylight are all features of the shower in our luxury bathroom.
- 2. Room arrangement depending on needs.** Due to the intelligent door construction and quality magnetic door lock, the toilet area, or indeed the whole bathroom, can be separated.
- 3. Fully-fledged mirror cabinet.** All your cosmetics can be easily stored in here. The lighting is elegantly integrated in the mirror.

All important accesses, connections, and drains are centrally located in the ServiceBox (further details on pages 28-29) for maximum convenience

The KNAUS STYLE cabin door has a practical waste bin on the inside and two clothes hooks

Optimal view and a pleasant light via the optional LED dipped beam

VANI

IT IS #NUMBER 1, BECAUSE IT...

is the **lightest vehicle** in its category.

looks particularly dynamic with its **frame appearance**.

has a width of only **2.2 m** meaning it is at home even on narrow roads

Dynamic lines and progressive design language ensure a striking appearance

Unique aluminium double floor for maximum durability

These layouts are a really good catch. For their trip to Scotland, Marie and Anton have equipped the 600 MG with 680 kilogram loading option for their equipment.

VAN I 550 MD

Roomy comfort bathroom with swivelling wall

VAN I 600 MG

VAN I 650 MEG

Comfortable single beds that extend to become a double bed

VAN I OVERVIEW

4-5 4 3,5 ✓

Layouts: 3

Total permissible weight: 3.500 kg

Rear garage (max):: 80 X 110 cm

More information can be found at
www.knaus.com/vani

Of course, good taste is part of it.

That is true whether it is the stylish interior or the freshly caught food on the grill that Anton is preparing. Marie is pleased with both.

Breathtaking views ♡

1 VAN I 650 MEG

Further details regarding the GRAMMER Luxury and Super Luxury seats can be found on page 26-27

2 VAN I 650 MEG

1. Excellent GRAMMER seats. Various adjustment options and active seat ventilation mean that even long distances can be taken on with ease. And all this as standard.

2. Rotating table. Regardless of how much space you need, the table can flexibly adjust to your requirements.

USB ports as standard

Practical LED touch spots for maximum convenience

The genuine wood edge on the table is part of a particularly homely atmosphere

LOUNGE OVERVIEW

550 MD	bench
600 MG	bench with side seat
650 MEG	bench

TRUMA i-Net System: control the vehicle's heating and many other functions easily via a smartphone or tablet

Soft-close overhead cupboards with automatic locking for maximum ease of use

Praktische Arbeitsflächenverlängerung mit Ein-Hand-Bedienung

The soft-close drawers with quality full extensions by GRASS are practical and extremely durable

KITCHEN OVERVIEW

550 MD	kitchenette
600 MEG	galley kitchen
650 MEG	galley kitchen

More information regarding our kitchens can be found on pages 36 – 37.

GALLEY KITCHEN VAN I 650 MEG

Succulent treats for the palate from the grill and the kitchen.

Best of all: due to the extremely stable and easy to use counter top extension there is sufficient space for loads of treats.

GALLEY KITCHEN VAN I 650 MEG 1

KITCHENETTE VAN I 550 MD 2

GALLEY KITCHEN VAN I 600 ME 3

Find out on page 33 what makes a HPL counter top so special

1. Spacious refrigerator. The 145-litre refrigerator with freezer compartment provides plenty of space for your supplies.

2. Kitchen version 550 MD. Of course, the kitchenette in VAN I is also fully equipped.

3. Robust HPL surfaces. So that your VAN I still looks fantastic even after many journeys.

Too comfortable for sleeping? Marie really could spend the whole day in the comfortable Drop down bed, buried in her books with a cup of tea.

- 1. Ideally usable wardrobes.** Due to the large door they are extremely easy to access and are equipped with practical storage options as well as a garment rail.
- 2. Extending single beds.** Pull out the roller slatted frame and add the upholstery. This instantly and easily creates a double bed from the single beds.
- 3. Quality Drop down bed.** Due to the EvoPore mattress and slatted frame, sleeping on these beds is just as good as the standard beds.

A bathroom for a beard.

Those who want to be well-groomed need a comfort bathroom. Anton is perfectly sure about that. The spacious storage areas mean he can store everything for a good shave.

1. Spacious comfort bathroom. The VAN I offers plenty of freedom to move and numerous storage options in its initial state.

2. Large shower cabin. If the swivelling wall is moved to the side, then the shower fills the space and has everything that is necessary. This means that the mirror, washbasin, and toilet remain dry.

Comfort bathroom

BATHOVERVIEW

550 MD	comfort bathroom
600 MG	comfort bathroom
650 MEG	comfort bathroom

More information regarding our baths can be found on **pages 44 – 47.**

Shower cabin on left, bathroom on right. The swivelling wall makes two rooms out of one

The new KNAUS PREMIUM cabin door has quite a bit to offer: for example, real glass windows & an automotive locking system. More information on pages 24-25

With the comprehensive styling package, the SKY I becomes even more attractive. Among others, the exclusive 17" KNAUS aluminium rims & high-quality chrome applications are part of this package

SKY I

IT IS #NUMBER 1, BECAUSE IT...

is **particularly winterproof** due to the double floor.

offers **fantastic value for money**.

has beds for **up to 5 people** on board.

Due to the GRP underbody, the structure is ideally protected against environmental influences

Plenty of storage space due to additional compartments in the double floor

Especially simple access to the gas bottles for maximum convenience

So much to discover with these layouts.

Marie and Anton are absolutely thrilled. Due to the huge panorama front on the SKY I 700LEG, the Irish coast can be seen in every fascinating detail as if you could reach out and touch it.

SKY I 650 LEG

NEW

With practical rear bench

SKY I 700 LEG

Patented 3D open bath

SKY I 700 LG

The space-saving Transverse bed provides a particularly clear sense of space

SKY I 700 LX

Luxurious Island bed, electrically height-adjustable as an option

The ServiceBox ensures maximum convenience. The exact reasons why are stated in pages 28-29

Fewer noises from the wind, greater safety, and elegant looks due to Seitz framed windows as standard

Outer doors with single-hand operation and optional central locking for exceptional ease of use

Provides ideal protection against heat and cold: quality XPS insulation

294 cm

from 694 to 748 cm

234 cm

Total permissible weight: 3.500 kg

Rear garage (max): 100 X 120 cm

More information can be found at www.knaus.com/skyi

Every moment is a winning moment here. Whether playing cards together or reading maps for the next trip, Marie and Anton always have luck on their side in the SKY I.

1. Retractable 32" LED-TV. The television has several connection options and also disappears behind the bench so it does not disturb anyone when not in use.

2. Quality pleated blind at front. This protects your privacy and can also be provided with an electric drive for even greater ease of use.

3. KNAUS smart CI. The 4.3" touch-screen means you can intuitively use various functions, such as lighting, air-conditioning, and heating as well as checking battery levels. Depending on the equipment options, the smart CI system.

Everything you need to know about the GRAMMER seats installed as standard can be found on pages 26-27

LOUNGE OVERVIEW

650 LEG	L-shaped bench with side seat
700 LEG	L-shaped bench with side seat
700 LG	L-shaped bench with side seat
650 LX	L-shaped bench with side seat

New things from Irish cuisine. Marie really enjoys experimenting in the fully-equipped kitchen and has gone through most Irish national cuisine from Irish stew to colcannon.

- 1. Spacious 145-litre refrigerator.** It can be operated with gas even during the journey. In combination with TRUMA Mono/DuoControl CS.
- 2. Practical ambient lighting.** This doesn't just provide cosy lighting, but also illuminates the drawers. It helps you find what you're looking for faster.
- 3. Stable 3-burner stove.** The multi-part cast-iron grate ensures that three saucepans or pans are safely standing on the hobs.

No need to count sheep. The generously-proportioned comfort beds mean that Marie and Anton can simply relax and be refreshed for their next discoveries.

Optional panorama skylight

1. Spacious wardrobes. It is particularly accessible due to a large wardrobe door, and is equipped with practical shelving and a garment rail.

2. Transverse bed layout variants. The Transverse bed perfectly utilises the available room and provides a particularly generous notion of space.

3. Fully functional Drop down bed. With a slatted frame and quality EvoPore mattresses, even the Drop down bed provides an excellent night's sleep.

SUN I 700 LX

My tip

Jürgen Thaler, Product Manager
KNAUS Motorhomes & Caravans

„Give yourself a little more luxury! On the EvoPore HRC mattresses with WaterGel padding (optional) you sleep like on cloud nine and also offer your back a spa treatment.“

Outer doors with single-handed operation and optional central locking ensure optimum ease of use

Thanks to the central locking system, it is even easier to operate. The KNAUS EXKLUSIV cabin door makes getting in even nicer

Insulated side panels come as standard

The standard daylight running strip emphasises the dynamic lines at the front, and the optional LED dipped headlights ensure an ideal view

744 cm

294 cm

234 cm

Two travellers, two axles, three layouts.

A combination that delights Marie and Anton. They chose the 700 LX for their trip through French vineyards.

SUN I (2-AXLE) OVERVIEW

Layouts: 4

Total permissible weight: 4.000

Rear garage (max): 80 - 100 X 120 cm

More information can be found at

www.knaus.com/suni-2axle

Live a life of luxury. In the lounge both Marie and Anton can really enjoy themselves. As good as a drop of the vintage is, the interior is just as tasteful. Everything is just great.

A la carte enjoyment ♥

1. Retractable 32" LED-TV. And thanks to ten Haaft's optional Oyster V Sat system with GPS and inclinometer, you'll always have the best reception.

2. Textile wall covers. Unique in this price category and one of many reasons for the thoroughly welcoming atmosphere in the SUN I.

3. KNAUS smart CI. The control panel with a 4.3 inch touch screen is intuitive to use and means you can easily operate the lights in the entire vehicle, check battery levels, and control the heating and air-conditioning.

With a transparent PET surface, the décor is particularly scratch-resistant

Sit perfectly on the test winners from Promobil 02/17

Can be adjusted to multiple positions and fitted with seat ventilation. Find out what the GRAMMER seats can do on pages 26-27

Kitchen fun with high gloss. When rinsing the glasses Anton can't say for sure what shines the most: the sink, the glasses, or Marie's blue eyes.

1. Spacious drawers. GRASS full-extension slides with soft-close function and metal push locks are a sign of exceptional quality.

2. Large refrigerator. Naturally, a 145-litre refrigerator is also on board so that all your suppliers have their place.

Sleep blissfully and wake up relaxed. Anton whispers “Je t’aime” and Marie is not quite sure if he meant her or the comfortable mattress instead. However, both would be understandable.

- 1. Elegant illuminated canopy.** Enjoy a quiet night in an extremely luxurious atmosphere along with a unique lighting ambience.
- 2. Comfortable lift bed.** Due to the slatted frame and the same mattress, it's no different to the fixed beds.

A kitchen to melt into.

So refined and of such high quality, even Anton's fondue is softer. Both can find everything they need to magic up first-class dishes.

1. Additional storage space. The unique storage compartment in the double floor is not just spacious, it is also useful in electrical terms so that you can reach your vegetables more readily.

2. Huge 177 liter refrigerator. So much space for treats and thanks to double stop the door can be opened easily in both directions.

3. Soft-close drawers. The quality full-extension slides from GRASS satisfy the most rigorous demands.

Layer of snow outside, duvet inside. Resting on the quality EvoPore mattresses is so comfortable, that Marie and Anton could simply watch the snowflakes dance down all day long.

- 1. Ceiling-high wardrobe.** So that none of your favourite pieces have to stay at home.
- 2. Comfortable Drop down bed.** The Drop down bed also features an EvoPore mattress and a full slatted frame for an excellent night's sleep.

BEDSOVERVIEW
